**RESPONSE TO NEVADA SITE SPECIFIC ADVISORY BOARD (NSSAB)  
RECOMMENDATION FOR CORRECTION ACTION ALTERNATIVES FOR CORRECTIVE  
ACTION UNIT (CAU) 576, MISCELLANEOUS RADIOLOGICAL SITES AND DEBRIS  
(WORK PLAN #1)**

I would like to thank the NSSAB for taking the time to provide a recommendation regarding the corrective action alternatives for CAU 576, Miscellaneous Sites and Debris, in a January 2017 letter.

The NSSAB recommended that DOE select a corrective action of clean closure for both the Kennebec (CAS 02-99-12) and Rad Waste Legacy Site (CAS 05-19-04). Once DOE determines a path forward on these sites later in the fiscal year, an updated letter will be provided to the NSSAB.

The Nevada Field Office Environmental Management Operations Activity appreciates the support of the NSSAB in this endeavor and the efforts made by the Board to provide recommendations. As always, the NSSAB's input is valued and your efforts are greatly appreciated.

Please direct comments and questions to Kelly Snyder at (702) 295-2836.
