SUBJECT: Recommendation for Clean Slate II Path Forward (Work Plan #2)

Dear Mr. Boehlecke:

The Nevada Site Specific Advisory Board (NSSAB) was asked to provide a recommendation, from a community perspective, to the U.S. Department of Energy (DOE) regarding the closure option and path forward that should be pursued for closure of the Clean Slate II Environmental Restoration site under the Federal Facility Agreement and Consent Order.

The NSSAB received a briefing at its November 9th Full Board meeting on the work plan item. After all questions were answered and extensive dialogue concluded, the NSSAB recommends that DOE continues to move forward with the Corrective Action Alternative of Clean Closure for Clean Slate II.

Thank you to Joseph Johnston, Navarro, for his presentation on the background on the Tonopah Test Range, and Tiffany Lantow, DOE Soils Activity Lead, for her presentation and for answering questions on the Clean Slate II work plan briefing. The Board values the opportunity to provide meaningful input to DOE regarding this work plan item.

Sincerely,
