

National Nuclear Security Administration Categorical Exclusion Determination Form

NEPA ID#: HEDLP 15-001-001

Proposed Action Title: NTTR Air Monitoring Activity (NV-2011-008)

Program or Field Office: Nevada Field Office

Location(s) (City/County/State): Nevada Test and Training Range

Proposed Action Description:

One monitoring station would be located on the Nevada Test and Training Range (NTTR).

1) Project 57 Solar Powered Air Sampler, Meteorological Tower, and Saltation Sensor: 37.338405°, 115.923123°

This station is a meteorological/radiation monitoring station including air monitors designed to determine if any airborne or other environmental contamination is emanating from the Project 57 site on the NTTR. Overall, the data collected on environmental processes at the site will help determine closure alternatives for the site under the FFACO.

Categorical Exclusion(s) Applied:

8-3.1 Environmental monitoring (e) air monitoring

For the complete DOE National Environmental Policy Act regulations regarding categorical exclusions including the full text of each categorical exclusion, see Subpart D of 10 CFR 1021. Regulatory Requirements in 10 CFR 1021.410(b): (See full text in regulation)

The proposal fits within a class of actions that is listed in Appendix A or B to 10 CFR Part 1021, Subpart D.

There are no extraordinary circumstances related to the proposal that may affect the significance of the environmental effects of the proposal.

The proposal has not been segmented to meet the definition of a categorical exclusion.

Based on my review of information conveyed to me and in my possession concerning the proposed action, as NEPA Compliance Officer (as authorized under DOE Order 451.1B), I have determined that the proposed action fits within the specified class(es) of action and that other-regulatory requirements set forth above are met. Therefore, the application of a categorical exclusion is appropriate.

NEPA Compliance Officer: Linda Cohn

Date Determined: 12/02/2010
