**For Immediate Release:**

October 8, 2015

### **Annual Environmental Monitoring Report Released**

The Nevada National Security Site (NNSS) Environmental Report for 2014 has been released and is available on-line at [www.nv.energy.gov/library/publications/aser.aspx](http://www.nv.energy.gov/library/publications/aser.aspx). This document is a collection of results from environmental activities, such as air and groundwater monitoring and ecological surveys, performed at the NNSS and off-site facilities from January through December 2014.

The report includes estimates of radiological exposure to the public from operations and legacy radioactive contamination from the NNSS. Also documented within this report are details about 2014 environmental restoration and radioactive waste management activities, historic preservation and cultural resources management, and site compliance with federal statutes, including *Radiation Protection of the Public and the Environment* (DOE Order 458.1), the *Safe Drinking Water Act* and *Endangered Species Act*.

A hard copy of the report is available in the Public Reading Facility located at 755 East Flamingo Road, Las Vegas, NV 89119, or by request at [nevada@nnsa.doe.gov](mailto:nevada@nnsa.doe.gov).
