NNSS now accepting summer internship applications
*Paid positions open for undergraduate,
graduate and doctoral students*

NORTH LAS VEGAS, Nevada – The Nevada National Security Site (NNSS) is currently accepting internship applications from undergraduate, graduate and doctoral students. The Site’s largest contractor, Mission Support and Test Services LLC (MSTS), has opportunities in science, engineering, technology, business and information technology fields available this summer.

“As Southern Nevada’s largest technology employer, MSTS is delighted to host returning and new students at the NNSS in support of our national security missions,” said MSTS President Mark Martinez.

Internships are available at the NNSS’ locations in Nevada; Livermore and Santa Barbara, California; Albuquerque and Los Alamos, New Mexico; and at Joint Base Andrews in Maryland. The program runs from May 17 to Aug. 14. Applicants must be U.S. citizens and meet certain eligibility requirements.

For more information on available positions and how to apply, please visit: <http://www.nnss.gov/pages/NFO/MSTSSStudentPrograms.html>. Interested students are encouraged to apply before the March 1 deadline.

###

The NNSS and its related facilities help ensure the security of the United States and its allies by: supporting the stewardship of the nation’s nuclear deterrent; providing nuclear and radiological emergency response capabilities and training; contributing to key nonproliferation and arms control initiatives; executing national-level experiments in support of the National Laboratories; working with national security customers and other federal agencies on important national security activities; and providing long-term environmental stewardship of the NNSS’s Cold War legacy.

The NNSS is managed and operated by Mission Support and Test Services LLC (MSTS). MSTS is a limited liability company consisting of Honeywell International Inc., Jacobs Engineering Group Inc., and HII Nuclear. The NNSS falls under the jurisdiction of the National Nuclear Security Administration (NNSA), an agency within the U.S. Department of Energy. The Site’s operations are government-controlled and contractor-operated, and are overseen by NNSA’s Nevada Field Office, headquartered in North Las Vegas.
