

4th QUARTER / ANNUAL TRANSPORTATION REPORT FY2015

Waste Shipments To and From the Nevada National Security
Site (NNS), Radioactive Waste Management Complex

This report was prepared for:
U.S. Department of Energy
National Nuclear Security Administration
Nevada Field Office

By:
National Security Technologies, LLC
Las Vegas, Nevada

January 2016

Work performed under contract number:
DE-AC52-06NA25946

Reference herein to any specific commercial product, process, or service by trade name, trademark, manufacturer, or otherwise, does not necessarily constitute or imply its endorsement, recommendation, or favoring by the United States Government or any agency thereof.

Available for sale to the public, in paper, from:

U.S. Department of Commerce
National Technical Information Service
5301 Shawnee Road
Alexandria, VA 22312
Phone: 800.553.6847
Fax: 703.605.6900
E-mail: orders@ntis.gov
Online Ordering: <http://www.ntis.gov/help/order-methods/>
Available electronically at <http://www.osti.gov/bridge>

Available for a processing fee to the U.S. Department of Energy and its contractors, in paper, from:

U.S. Department of Energy
Office of Scientific and Technical Information
P.O. Box 62
Oak Ridge, TN 37831-0062

1.0 INTRODUCTION

This report satisfies the U.S. Department of Energy (DOE), National Nuclear Security Administration Nevada Field Office (NNSA/NFO) commitment to prepare a quarterly summary report of waste shipments to and from the Nevada National Security Site (NNSS) Radioactive Waste Management Complex (RWMC) at Area 5. This report summarizes the 4th quarter of Fiscal Year (FY) 2015 low-level radioactive waste (LLW), mixed low-level radioactive waste (MLLW) shipments and classified non-radioactive (CNR) shipments. There were no shipments sent for offsite treatment and returned to the NNSS this quarter or during FY2015.

Tabular summaries are provided which include the following:

- Sources of and carriers for LLW, MLLW and CNR shipments to and from the NNSS;
- Number and external volume of LLW, MLLW and CNR shipments;
- Highway routes used by carriers; and
- Incident/accident data applicable to LLW, MLLW and CNR shipments.

In this report shipments are accounted for upon arrival at the NNSS, while disposal volumes are accounted for upon waste burial. Volume reports showing cubic feet (ft³) generated using the Low-Level Waste Information System may vary slightly due to rounding conventions for volumetric conversions from cubic meters to cubic feet.

2.0 SUMMARY OF WASTE SHIPMENTS AND VOLUMES DISPOSED

Total LLW and MLLW Received from Offsite Generators

A total of 391,584 ft³ of LLW and MLLW was disposed at the NNSS by 19 approved radioactive waste generators in 420 shipments. These shipments were transported using 14 approved motor carriers (including government vehicles).

Total NNSS Onsite LLW/MLLW

Two approved NNSS onsite radioactive waste generators disposed 127 ft³ of LLW/MLLW in three onsite transfers. Government vehicles were used for these transfers.

Total CNR Received from Offsite Generators

There were six classified non-radioactive shipments in the 4th quarter of FY2015 for a total volume of 4,018 ft³. These shipments were transported using four approved motor carriers.

Table 1 provides a summary of inbound (offsite and onsite) and classified non-radioactive shipments. Table 2 provides a list of approved waste generators that shipped to/on the NNSS in the 4th quarter of FY2015.

Table 1

NNSS Inbound, Onsite, and Classified Non-Radioactive Shipment Summary for 4th Quarter of FY2015

Inbound	Generators	NNSS Generators	Approved Carriers	Shipments	Volume ft³
LLW / MLLW (offsite)	19	1	14	420	391,584
LLW / MLLW (onsite)	0	2	1	3	127
Classified Non-Radioactive	4	1	4	6	4,018

Table 2

Approved Generators Shipping To/On the NNSS in 4th Quarter of FY2015

	APPROVED GENERATOR, STATE	GENERATOR CODE
1	Aberdeen Proving Ground	AP
2	Advanced Mixed Waste Treatment Project	AM
3	Battelle Energy Alliance	NE
4	Brookhaven National Laboratory	BR
5	CH2M Hill B&W West Valley, LLC	WV
6	Consolidated Nuclear Security, LLC Y-12	BW
7	Idaho National Laboratory	IN
8	Lawrence Livermore National Laboratory	LL
9	Los Alamos National Laboratory	LA
10	National Security Technologies	DP
11	Nuclear Fuel Services	NF
12	Navarro	IT
13	Oak Ridge Reservation	OR
14	Paducah Gaseous Diffusion Plant	PD
15	Pantex	PX
16	Perma-Fix (M&EC)	PF
17	Portsmouth Gaseous Diffusion Plant	PO
18	Sandia National Laboratory	SA
19	UT-Battelle / Oak Ridge National Laboratory	OL
20	Wastren Advantage Inc.	FW

2.1 Waste Transporters (Motor Carriers)

Motor carriers operate in compliance with Title 49 Code of Federal Regulations (CFR), "Transportation," and are selected by the waste generator. Generators often use multiple motor carriers during the year to facilitate their shipments. Table 3 provides a list of the approved carriers used to transport LLW, MLLW and CNR shipments to the NNSS. Government trucks were used for selected shipments from the Sandia, Portsmouth and LLNL sites.

No shipments bound for the NNSS were transported via intermodal (rail/highway) conveyance, also referred to as transloading, in the 4th quarter of FY2015.

Table 3
Approved Motor Carriers Used in 4th Quarter of FY2015

	APPROVED MOTOR CARRIER	CARRIER CODE
1	AJ METLER (dba SPECIALTY TRANSPORT, INC.)	MAJH
2	BOYLE TRANSPORTATION, INC.	BYLE
3	BUFFALO FUEL CORPORATIONS	BUFI
4	CAST TRANSPORTATION	COLO
5	FLUID TRANSPORTS, INC.	FLAI
6	GOVERNMENT VEHICLE	GT+
7	HITTMAN TRANSPORT	HITT
8	HUBBARD TRUCKING	HTAL
9	INTERSTATE VENTURES	ITSV
10	M.P. ENVIRONMENTAL SERVICES, INC.	MPES
11	R&R TRUCKING, INC.	RRUK
12	TLI FREIGHT SERVICES, LLC	TLVC
13	TNI, INC (DBA: AATCO)	AADD
14	TRI-STATE MOTOR TRANSIT	TSMT

2.2 Shipments

Table 4 provides a summary of all LLW and MLLW offsite shipments received at NNSS. Table 5 provides a summary of NNSS onsite transfers of LLW and MLLW. Table 6 provides a summary of all Classified Non-Radioactive shipments received at NNSS. The three tables include a summary for FY2015 in the “Total” column.

**Table 4
Offsite Shipments of LLW and MLLW Transported to the NNSS**

Offsite Inbound Shipments Generator, State	Shipments by Quarter				
	1 st	2 nd	3 rd	4 th	Total

Total Transfers	4	4	3	6	17

2.3 Transportation Route Reporting

The NNSA/NFO continues to engage in discussions with waste generators regarding avoiding the Las Vegas Metropolitan Area. The NNSS Waste Acceptance Criteria includes wording requiring generators to notify their carriers to avoid this area and to select routes which minimize radiological risk.

Due to the events of September 11, 2001, tractor trailers continue to be restricted from travel near the Hoover Dam. The NNSS WAC states, "Waste transportation to the NNSS, regardless of DOT classification, shall avoid the Hoover Dam Bypass Bridge and Las Vegas".

Quarterly and annual transportation reports may be found on the Internet at <http://www.nv.energy.gov/emprograms/transportationreports.aspx>

The following two pages provide details and a graphic depiction of waste shipment routes traveled to the NNSS from July 1, 2015, to September 30, 2015.

*There were no transloaded shipments this quarter

3.0 INCIDENT/ACCIDENT DATA

For the purpose of this report, an incident is defined as a traffic-related accident, a load shift, or a reported leaking/breached package which occurs during transportation of LLW or MLLW. There were no incidents in the 4th quarter of FY2015.

Waste generators are instructed to notify the NNSA/NFO Assistant Manager of Environmental Management whenever a discrepancy, non-compliance, or inadequate performance is identified; or if a transportation incident or emergency situation occurs.

NSTec, a contractor to the NNSA/NFO, controls NNSW waste receipt and disposal activities and is responsible for notifying appropriate personnel regarding any non-compliant or refused shipments. NSTec personnel also immediately notify generators of any shipping discrepancies.

4.0 EVALUATION OF SHIPPING CAMPAIGNS

This section contains an evaluation summary of the annual shipping campaigns with respect to the significance of the packaging or transportation incidents reported in Section 3.0. Waste generators must ensure that waste is packaged and transported in a safe and compliant manner as detailed in the NNSW Waste Acceptance Criteria (WAC) and U.S. Department of Transportation regulations. Generators and their contracted shipping carriers must be diligent with regard to all requirements including packaging, routing, and shipping documentation.

The NNSW Radioactive Waste Acceptance Program (RWAP) provides oversight of NNSW waste generators for compliance with Department of Transportation regulations and the NNSW Waste Acceptance Criteria including Section 6.0, Waste Transportation and Receipt Information. All generator performance anomalies are tracked and trended for deficient conditions.

Corrective Action Requests (CARs) are issued by RWAP personnel to identify, track, and resolve deficiencies that violate the NNSWAC — including failure to follow Department of Transportation requirements. Observations are also issued by RWAP personnel for conditions that represent a weakness in a waste generator's quality assurance or waste certification program that if left uncorrected could result in a condition adverse to quality.

There were no transportation associated CAR's issued in this reporting period.

For the FY2015 period, the only transportation associated CAR issued was during the 3rd quarter. The CAR is described in section 4.0 of DOE/NV/25946—2540, "3rd Quarter Transportation Report FY2015".

5.0 REFERENCES

Shipment information is recorded at the NNSS Area 5 Radioactive Waste Management Site by NSTec Waste Management Program personnel. These records provide detailed information on each LLW, MLLW and CNR shipment, including the date received, generator, package number and type, volume, weight, carrier, and final disposition. In addition, incident and accident information is collected from NSTec and NNSA/NFO correspondence and personal communications with NNSA/NFO managers, NSTec personnel, waste generators, and carrier personnel. Route information is collected from the NNSA/NFO quarterly routing reports published by NNSA/NFO.
