Proposed Action Title: Area 25- Criminal Site Investigation

Program or Field Office: Nevada National Security Site

Location(s) (City/County/State): Mercury, NV

Proposed Action Description

The Federal Bureau of Investigation (FBI) is proposing to conduct pedestrian grid surveys at four locations in Area 25 of the Nevada National Security Site (NNSS) as part of an ongoing investigation. The four locations, shown on the attached map, are along roads. Surveyors would be looking for indications of a potential burial site. Trowels, shovels, or other hand tools would be used to determine the presence or absence of remains if a potential burial site is identified. If remains are found, a larger area would be excavated using hand tools to retrieve evidence. The coroner or other appropriately qualified official would confirm the age and identity of the remains.

Regulatory Requirements in 10 CFR 1021
