

Tilt-Up Task 1 - Bldg 23-474 RFP 0025480-SH-26

Question	Answer	Answered in AMD
Will topographic information about the site be made available to the bidders?	Yes, it is inclucluded in Amendment #5	5
Will a Geotechnical Report for the site be made available to the bidders?	Yes, it is inclucluded in Amendment #5	5
The site walk revealed many new facets to the overall building approach each requiring information to be provided by MSTs. When the information is received from MSTs it will need to be vetted through our design team and a BOD will need to be created in order to properly solicit pricing. With that in Mind please extend the proposal date to roughly 11MAR2026 giving us time to process your responses/information and implement the most cost effective solution and solicit pricing.	Granted. Proposal due date extended to March 11, 2026 4:00 PM PST	5
During the site walk it was discussed that a geotech report was available from some of the surrounding project. Please provide available geotechnical information to support initial design development and task order pricing efforts.	Yes, it is inclucluded in Amendment #5	5
During the site walk it was discussed that a topo survey was available. Please provide available topographical survey information.	Yes, it is inclucluded in Amendment #5	5
Based on the above requested information and clarifications, we'd also like to request at least a 2 week extension to the proposal due.	Granted. Proposal due date extended to March 11, 2026 4:00 PM PST	5
