RECOMMENDATION FOR ANNUAL UPDATE PRESENTATION FOR PAHUTE MESA
CORRECTIVE ACTION UNITS [CAUs] (WORK PLAN ITEM #7)**

Reference: Ltr Graham to Boehlecke, dtd 11/22/23

The U.S. Department of Energy, Environmental Management (EM) Nevada Program received correspondence from the NSSAB providing the Board's recommendations for improvements to the annual update presentation for the State of Nevada Division of Environmental Protection (NDEP).

The EM Nevada Program appreciates the time the NSSAB spent reviewing this presentation during the November 8, 2023, Full Board Meeting. The NSSAB's recommendations will be incorporated into the presentation before formally presenting to NDEP staff in December 2023. These recommendations will help support the background and understanding of the Pahute Mesa groundwater CAUs.

Thank you to the NSSAB for its insightful feedback on this work plan item. Please feel free to contact the NSSAB Office at (702) 523-0894 with any questions or comments.
