

Install ActivClient on Personal Windows Computer

KB0011976 (Review)

☆☆☆☆☆ 7 views

Overview

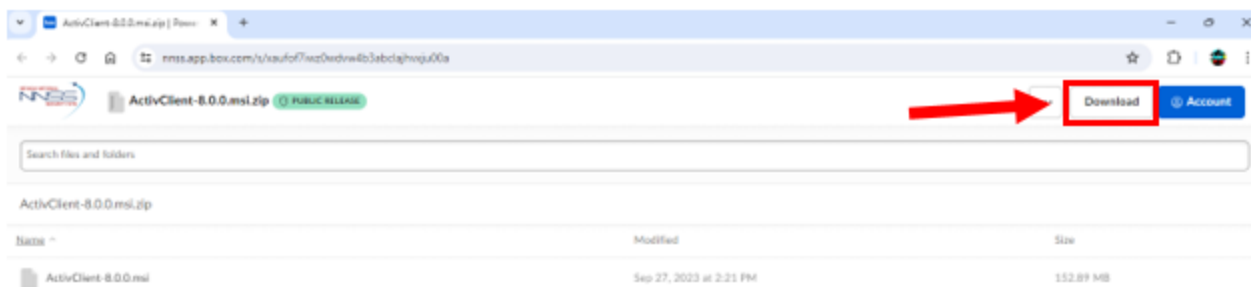

Applies to Windows computers

Purpose

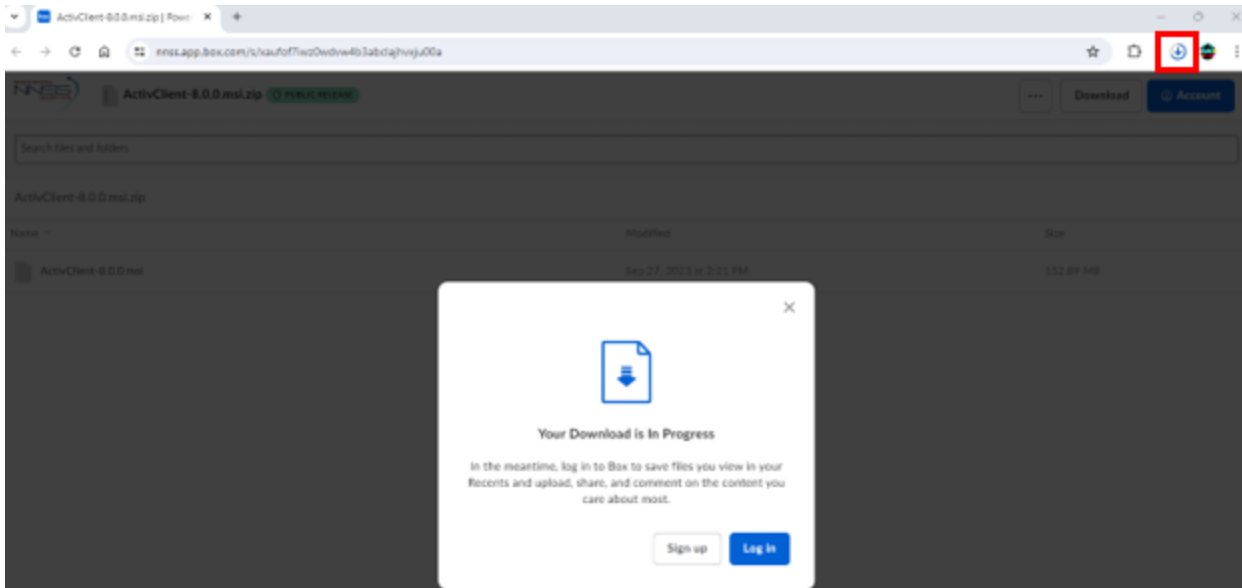

The following instructions walk you through installing ActivClient on your personal Windows computer at home. This resolves common errors when authenticating to different applications using your badge while connected to your VMware Horizon session.

Instructions

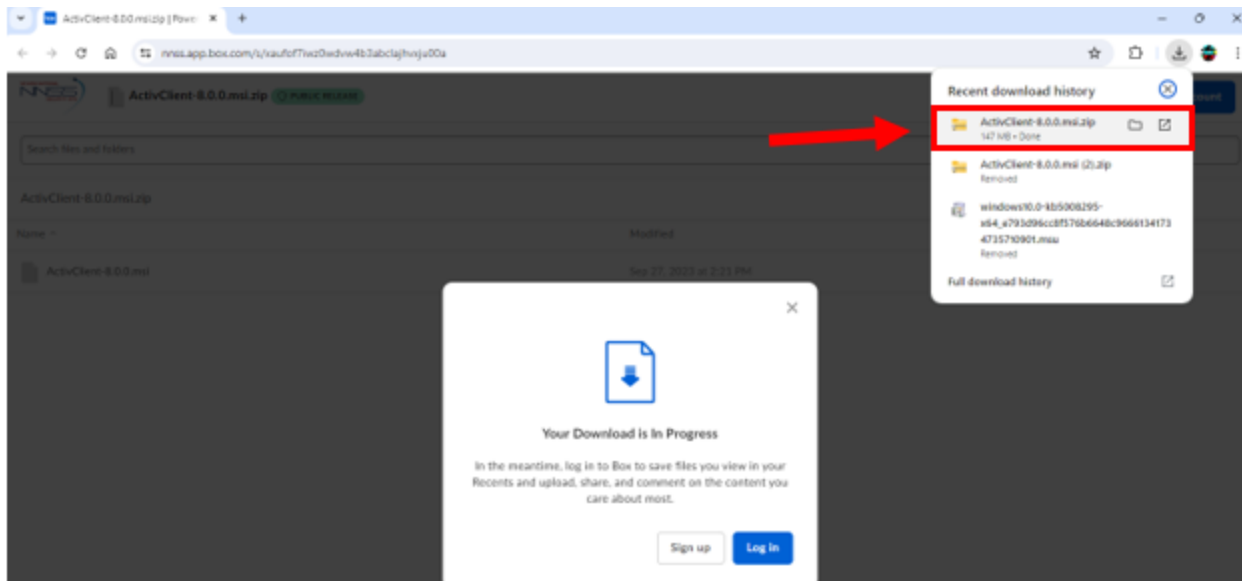

1. In a web browser go to <https://nss.box.com/s/xaufof7iwz0wdvw4b3abclajhvxju00a> (<https://nss.box.com/s/xaufof7iwz0wdvw4b3abclajhvxju00a>)
2. Click **Download**

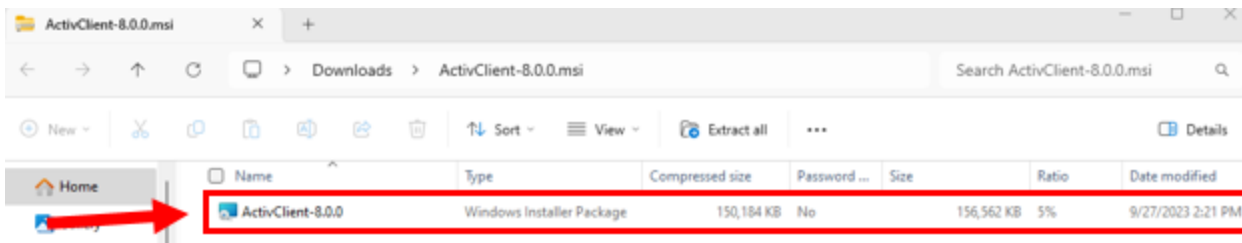

3. You'll see the file downloading in the top right corner

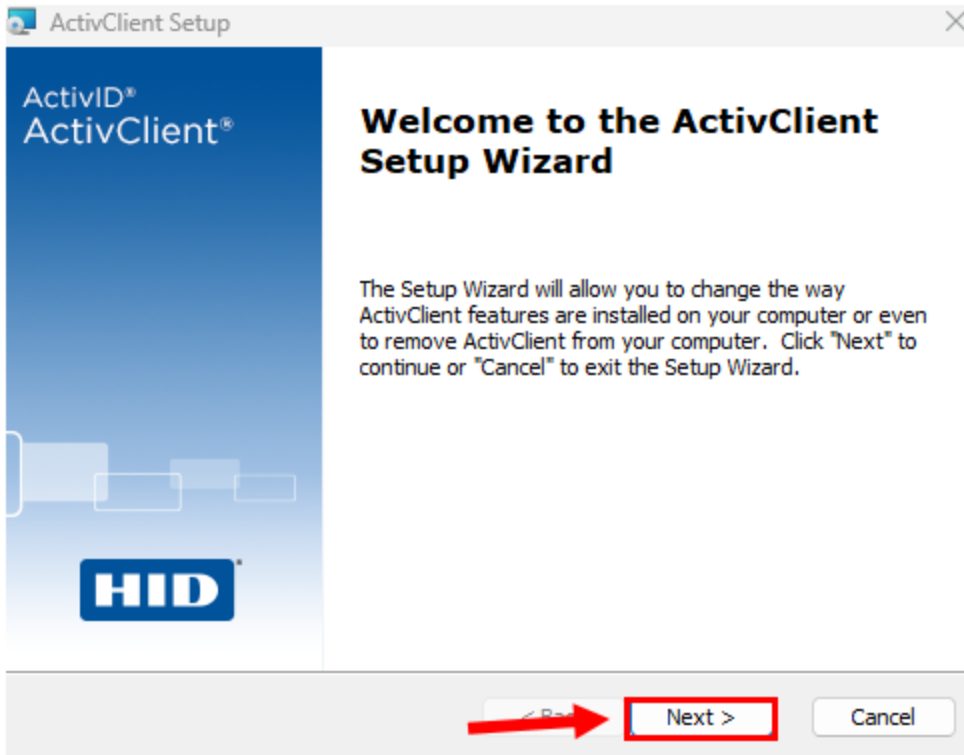

4. Once download is complete. Click the **ActivClient-8.0.0.msi.zip** file from your Download History

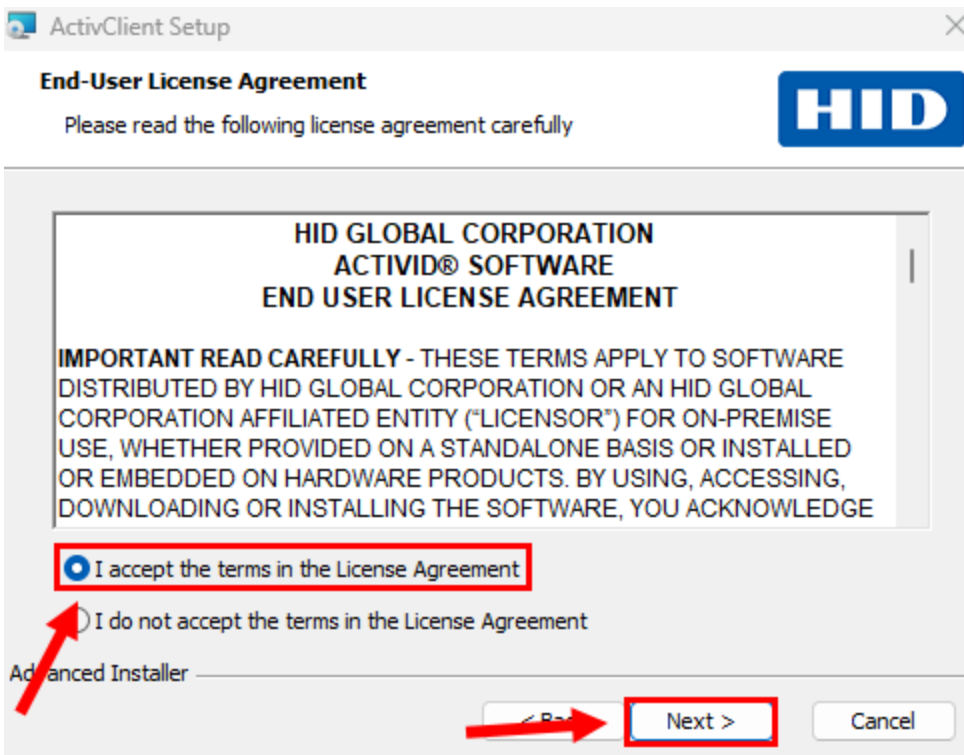

5. Double-Click the **ActivClient-8.0.0** windows installer package

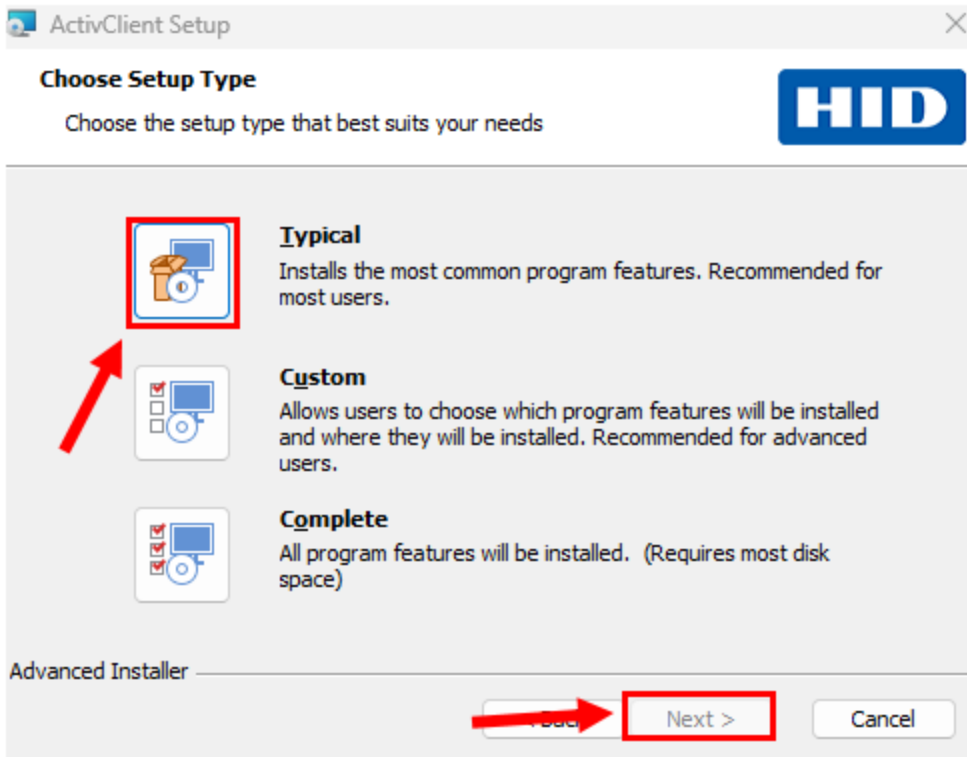

6. Click **Next**

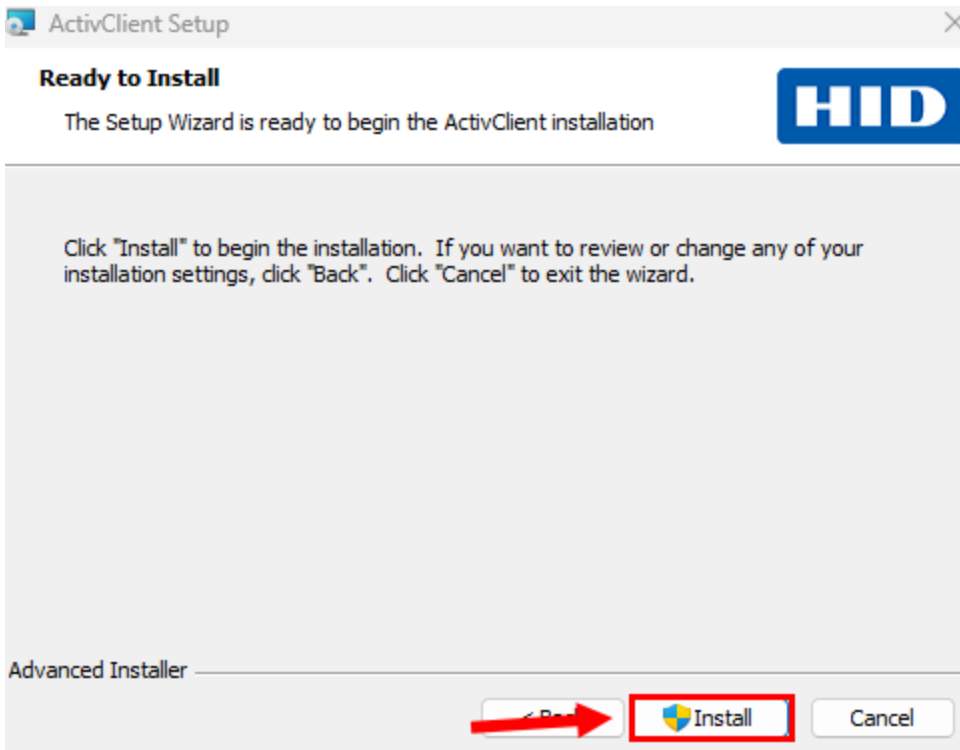

7. Select **I accept the terms in the License Agreement** and Click **Next**

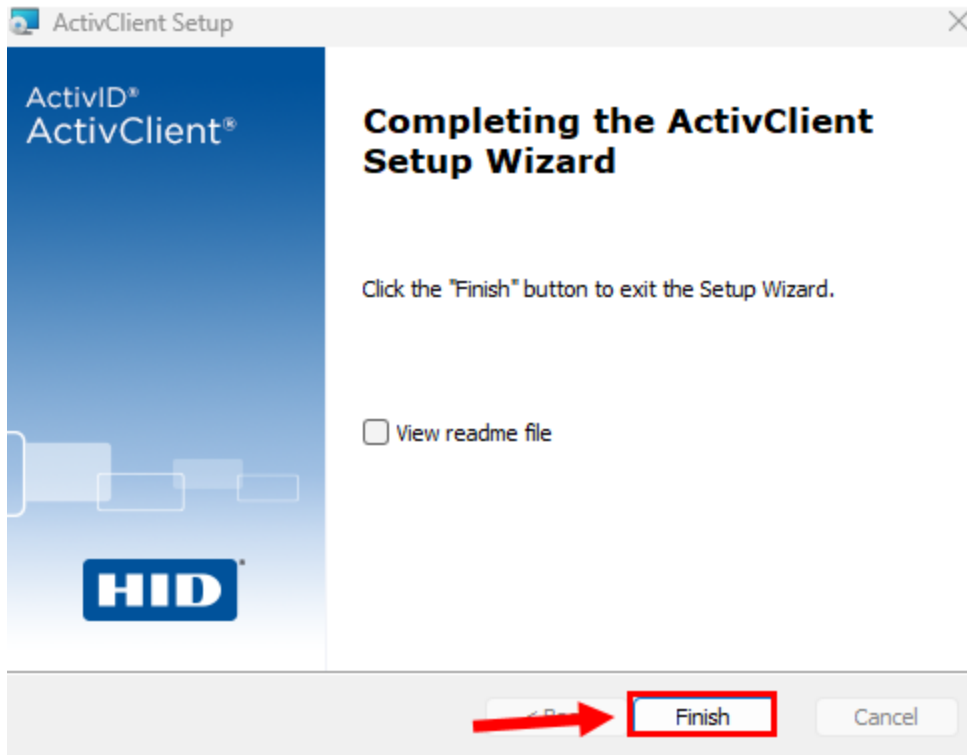

8. Select **Typical** amd Click **Next**

9. Click **Install**

10. Click **Finish**

11. **Reboot** your computer

Help
