

FRMAC MONITORING AND SAMPLING WORKING GROUP UPDATE

- Review existing documentation
 - Review M&S Documentation (group action by August)
 - Review manuals and provide minor edits
 - Review and update operator aids
 - Need to update applicable Monitoring Division Training (Gwin)
 - Last updated in 2020-2021 time frame.
- Need to consider standardizing RR settings/inputs (like equipment) among CMRT and RAP assets.
 - Draft document exists for settings /inputs (Cerefice/Gwin).
 - Will help to respond more cohesively during operations.
