

Environmental Management (EM) Nevada Program Activities Monthly Report to the Nevada Site Specific Advisory Board (NSSAB) November 2025

External Affairs

- Events/Stakeholder Meetings:
 - Participated in a Walk a Mile in my Shoes fundraiser to benefit the Las Vegas Rescue Mission (LVRM) – October 4, 2025
 - Advertised and accepted STEM Grant applications for school year 2025-2026 – eligibility was open to public, private, and charter schools in the counties of Clark, Elko, Esmeralda, Lincoln, Nye, and White Pine in Nevada; grant closed on October 22, 2025; announcement of grant recipients anticipated early next calendar year with a news release

LVRM Walk a Mile in My Shoes Fundraiser

- Publications:
 - Calendar year 2024 *NNSS Environmental Report* can be accessed [here](#). This report is written to inform the public, regulators, employees, and other stakeholders of the performance of the Nevada National Security Site (NNSS) environmental program. The EM Nevada mission activities primarily appear in Chapters 2 (Compliance Summary), 5 (Water Monitoring), 10 (Waste Management), 11 (Environmental Corrective Actions), and 14 (Quality Assurance). [*standing item*]

Waste Disposal and Transportation

- Update from previous reports - Oak Ridge, TN generator #1: In December 2024, the Radioactive Waste Acceptance Program (RWAP) conducted a facility evaluation that resulted in four Findings. The EM Nevada Program received the closure package and closed the Findings in October 2025.
- Update from previous reports – Los Alamos, NM generator: In February 2025, RWAP conducted a facility evaluation that resulted in one Finding. The EM Nevada Program received the closure package and closed the Finding in October 2025.
- Update from previous reports – West Valley, NY generator: In August 2025, RWAP conducted a facility evaluation that resulted in no Findings.
- Update from previous report – Hanford, WA generator: In September 2025, RWAP conducted a facility evaluation that resulted in no Findings.

- Update from previous report – Amarillo, TX generator: In September 2025, RWAP conducted a facility evaluation that resulted in two Findings.
- Update from previous report – Livermore, CA generator: This facility evaluation will be rescheduled to a later date (TBD).
- In the month of November 2025, RWAP plans to conduct no facility evaluations.
- In the month of October 2025, 66,729 cubic feet of low-level waste (LLW), mixed (MLLW), and classified waste were received for disposal at the NNSS. Data is considered preliminary until internal quality checks are completed.
- In the month of November 2025, approximately 54,795 cubic feet of LLW, MLLW, and classified waste are forecasted for disposal at the NNSS.

Post-Closure Monitoring

Non-Resource Conservation and Recovery Act (RCRA) Post-Closure Monitoring Sites

The Non-RCRA Post-Closure Monitoring Sites include Corrective Action Sites (CASs) where post-closure inspections and maintenance were performed in accordance with closure requirements. The 2025 annual inspections have begun and will continue through the end of the calendar year.

Industrial Sites

Corrective Action Unit (CAU) 114, Area 25 Engine Maintenance, Assembly and Disassembly (EMAD)

CAU 114 comprises three CASs in Area 25 of the NNSS. The Streamlined Approach for Environmental Restoration (SAFER) Plan was approved by the State of Nevada Division of Environmental Protection (NDEP) in June 2021. Preparation of the facility for eventual demolition continued in October 2025.

CAU 572, Test Cell C (TCC) Ancillary Building and Structures

CAU 572 comprises five CASs in Area 25 of the NNSS. The SAFER Plan was approved by NDEP in April 2021. The EM Nevada Program achieved a significant milestone in August 2025 with the successful demolition of TCC, a historic industrial facility. Planning commenced in 2022, and demolition is now complete after three years of meticulous preparation and labor-intensive work. The remaining step for TCC is preparation of the closure report, which continued in October 2025.

Underground Test Area (UGTA) – Groundwater

CAU 101/102, Pahute Mesa

In October 2025, completed annual inspections of wells.
