4. If the Offeror is not granted an exception from the requirement to submit cost or pricing data, the following applies:
 - a. The Offeror shall prepare and submit cost or pricing data and supporting attachments in accordance with Table 15-2 of FAR 15.408.
 - b. As soon as practicable after agreement on price but before Subcontract award (except for unpriced actions such as letter Subcontracts), the Offeror shall submit a Certificate of Current Cost or Pricing Data, as prescribed by FAR 15.406-2.
5. Subcontract requirements for certified cost or pricing data. If the Offeror intends to issue a subcontract in performance of this requirement and it is expected to exceed the threshold for the submission of cost or pricing data at FAR 15.403-4, the subcontractor is subject to the above requirements.

The Offeror grants the Contractor or an authorized representative the right to examine, at any time before award, books, records, documents, or other directly pertinent records to verify any request for an exception under this provision and the reasonableness of price. For items priced using catalog or market prices, or law or regulation, access does not extend to cost or profit information or other data relevant solely to the Offeror's determination of the prices to be offered in the catalog or marketplace.

*See FAR 2.101 for definition of "commercial."

4.8 Evaluation of Options

Except when it is determined not to be in MSTs' best interest, MSTs evaluates offers for award purposes by adding the total price for all options to the total price for the basic requirements. Evaluation of options will not obligate MSTs to exercise the option(s).

MSTS analyzes proposals to determine whether prices are unbalanced and may reject a proposal offer as nonresponsive if it determines that the proposal is materially unbalanced. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more line items is significantly over or understated as indicated by the application of cost or price analysis techniques.

4.9 Representations and Certifications

By submitting a proposal to MSTs in response to this solicitation, the Offeror is certifying that:

1. The representation and certification information on the Representation and Certifications form is accurate and complete as of the date of the offer.
2. All statements and explanatory documentation submitted are current and accurate.
3. Offeror complies with all requirements of State of Nevada statutes, ordinances, rules and regulations, codes, and orders related to equal employment opportunity and operation of non-segregated facilities.
4. All Offeror employees who may work on MSTs premises or on Site are not under the influence of controlled substances, drugs, or alcohol. Offeror agrees to the testing of assigned employees under MSTs program for controlled substances.
5. Offeror's information from the Representations and Certification Form shall be current, accurate and complete and is not greater than 12 months old.

4.10 Anti-Kickback Certifications

By submitting a proposal response to this solicitation, the Offeror certifies that it has not:

1. Provided, attempted to provide, or offered to provide, any kickback.
2. Has not solicited, accepted, or attempted to accept any kickback.
3. Included, directly or indirectly, the amount of any kickback, in the Subcontract price proposed by the Offeror to the Contractor. (For definition of the term kickback, see 41 U.S.C. § 8701(2), Title 41 U.S.C. Chapter 87, Sections 701 and 8702).
4. By submitting a proposal in response to this solicitation, Offeror agrees to indemnify, defend, and hold harmless Contractor for any and all liability, loss, damages, penalties, claims, costs, and expenses, including attorney fees and costs of legal action, litigation, or settlement, arising from or relating to Offeror's failure to certify or false certification of compliance with any requirements of this Section, regardless of whether the failure or false certification was willful, intentional, or knowing.

5.0 Additional Information

In order for MSTs to adequately evaluate the proposal, some additional information is required. Please complete and return all forms and documents listed in the Forms Section of this RFP.

5.1 Acceptance of Terms and Conditions and Technical Requirements

The subcontract resulting from this RFP will be substantially the same as the draft Subcontract that is contained in Part C of this Subcontract. Offeror must describe any exceptions (on the Agreement Exceptions Form) to the terms and conditions and technical requirements. MSTS considers compliance with the terms and conditions and technical requirements of the Subcontract to be essential. In case of doubt, Offeror should request clarification from the Procurement Specialist. If any exceptions are taken to the terms and conditions and/or technical requirements of the Solicitation, the pricing shall be based on the requirements of the Solicitation and the exception(s) priced as alternates. If the proposal is based only on the proposed exceptions, MSTS may determine the proposal to be non-responsive.

Unless otherwise noted in the proposal, Offeror's submission of a proposal signifies unqualified acceptance of all of the terms and conditions and technical requirements of the Subcontract that are contained in or referenced in this Solicitation.

5.2 Proposal Validity Period

Offeror's proposal shall remain firm for 90 days after the proposal due date.

5.3 Financial Capability Determination Information

Buyer reserves the right, prior to award, to require Offeror to submit information which Buyer will use to make a determination whether Offeror has the financial capability to perform the contemplated subcontract. Such information may include but not be limited to annual reports; lines of credit with financial institutions and suppliers; and any other information that may be required to make the appropriate determination.

5.4 Drawings and/or Specifications to be Returned

The drawing(s) and or specification(s) accompanying this RFP shall be returned to the issuing office when the recipient is non-responsive, or within 30 days of the receipt of notice of award to another Subcontractor.

5.5 Foreign Nationals

If the Offeror intends to propose any foreign national (non-US citizen) personnel, that information must be a part of the Offeror's proposal. They will be processed in accordance with MSTS Unclassified Visits and Assignments by Foreign Nationals procedures prior to commencement of the work. This process could add lead-time from a few days up to several weeks depending on the country of origin, facilities they will access, and the subject matter involved.

MSTS First-Tier Subcontractor Transparency Act Reporting Form Guidance FAR 52.204-10 Reporting Executive Compensation and First-Tier Subcontract Awards (Oct 2016)

Subcontractor's Compensation Reporting Guidelines

Upon award of any Subcontractor award of \$40,000 or more, and annually thereafter, MSTS as the prime contractor must report the total compensation and names of the Subcontractor's top five most highly compensated executives if:

- (a) In the Subcontractor's preceding fiscal year, the Subcontractor received:
 - (i) 80% or more of its annual gross revenues from Federal contracts (and subcontracts), loans, grants (and subgrants) and cooperative agreements, and other forms of Federal financial assistance; and
 - (ii) \$25,000,000 or more in annual gross revenues from Federal contracts (and subcontracts), loans, grants (and subgrants) and cooperative agreements, and other forms of Federal financial assistance; and
- (b) The public does not have access to information about the compensation of the executives through period reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 USC 78m(a), 78o(d)) or section 6104 of the Internal Revenue Code of 1986.

If a Subcontractor in the previous tax year had gross income from all sources under \$300,000, the prime contractor does not need to report awards for that subcontractor.

This information will be reported through SAM.gov Subaward Reporting System. The public may view first-tier subcontract award data at <http://usaspending.gov>.

Definitions

As used in FAR 52.204-10:

Executive means officers, managing partners, or any other employees in management positions.

First-tier subcontract means a subcontract awarded directly by the Contractor for the purpose of acquiring supplies or services (including construction) for performance of a prime contract. It does not include the Contractor's supplier agreements with vendors, such as long-term arrangements for materials or supplies that would benefit multiple contracts and/or the costs of which are normally applied to a Contractor's general and administrative expenses or indirect cost.

Total compensation means the cash and noncash dollar value earned by the executive during the Contractor's preceding fiscal year and includes the following (for more information see 17 CFR 229.402(c)(2)):

- (1) Salary and bonus.
- (2) Awards of stock, stock options, and stock appreciation rights. Use the dollar amount recognized for financial statement reporting purposes with respect to the fiscal year in accordance with the Financial Accounting Standards Board's Accounting Standards Codification (FASB ASC) 718, Compensation-Stock Compensation.
- (3) Earnings for services under non-equity incentive plans. This does not include group life, health, hospitalization or medical reimbursement plans that do not discriminate in favor of executives and are available generally to all salaried employees.
- (4) Change in pension value. This is the change in present value of defined benefit and actuarial pension plans.

- (5) Above-market earnings on deferred compensation which is not tax-qualified.
- (6) Other compensation, if the aggregate value of all such other compensation (e.g., severance, termination payments, value of life insurance paid on behalf of the employee, perquisites or property) for the executive exceeds \$10,000.

Form 012 – Organizational Conflict of Interest – Representation or Disclosure

It is the policy of MSTS and its Government Agency clients to identify and avoid Organizational Conflicts of Interest (OCI), that is, situations which place an Subcontractor in a position where its judgment may be biased due to any past, present, or currently planned interest, financial or otherwise, that the Subcontractor may have which relates to the work to be performed pursuant to this solicitation or where the SUBCONTRACTOR'S performance of such work may provide it with an unfair competitive advantage. (As used herein, "Subcontractor" means the proposer as an individual consultant, a representative of a corporation or company, or any of its affiliates or proposed consultants or supplier/subcontractor of any tier).

DISCLOSURE

The Subcontractor shall provide a statement, which describes, in a concise manner, all requirements listed in the Special Condition entitled "Organizational Conflicts of Interest – Advisory and Assistance Contracts."

The Subcontractor may, because of possible OCIs, propose to exclude specific kinds of work, unless the solicitation specifically prohibits such exclusion. Any such proposed exclusion by a Subcontractor shall be considered by MSTS in the evaluation of proposals, and if MSTS considers the proposed excluded work to be an essential or integral part of the required work, the proposal may be rejected as unacceptable.

The Subcontractor may also provide information that shows how its organizational structure and/or management systems limit possible OCIs relating to affiliates or other divisions of the Subcontractor and how that structure or system would avoid an OCI.

The Subcontractor shall submit the same information as required herein, for its subcontractors, which will perform work similar to that to be performed by the Subcontractor and are over the simplified acquisition threshold.

The Subcontractor shall promptly provide to MSTS any changes or additions in its relevant facts that occur between the submission of its proposal and the award of the subcontract or the time that the Subcontractor is notified that it is no longer under consideration for award.

REPRESENTATION

In the absence of any relevant facts, the Subcontractor shall complete the *Representation* certifying that to the best of his or her knowledge and belief no such facts exist. Also, a completed *Representation* must be provided by the Subcontractor for each of its consultants and suppliers/ Subcontractors which will perform work similar to that to be performed by the Subcontractor and for each of its chief executives and directors, and those of its consultants and suppliers/ Subcontractors performing similar services, who will be directly involved in performance of the subcontract.

MSTS AND GOVERNMENT CLIENT

No award shall be made until the *Representation* or *Disclosure* has been evaluated by MSTS. MSTS will review the *Representation* or *Disclosure* and may require additional information from the Subcontractor. All information received from the Subcontractor and any other relevant information known to MSTS or the client will be used to determine whether an award to the Subcontractor may create an OCI with respect to the Subcontractor's (1) being able to render impartial, technically sound, and/or objective assistance or advice or (2) being given an unfair competitive advantage. If an OCI is found to exist, MSTS, at its sole discretion, may (1) impose appropriate conditions which avoid such conflict, (2) disqualify the Subcontractor for award, or (3) determine that it is otherwise in the best interest of the government to contract with the Subcontractor in face of an OCI after including appropriate conditions mitigating such conflict.

Failure to specify the minimum information as well as submitting full supporting documentation may cause for invoice rejection or delay in payment. Contractor may withhold payment on any Subcontractor invoice until all properly completed and signed documentation is received and, if applicable, badges/property returned by Subcontractor.

Invoice Certification. Submittal of an invoice constitutes the Subcontractor's certification that materials, work and/or services have been delivered as specified on the invoice in accordance with the Blanket Master Agreement. This invoice certification additionally represents that all invoiced hours and materials are true, accurate and correctly represent the invoiced costs to accomplish this Work on the Blanket Master Agreement. Falsely invoicing costs may result in civil or criminal penalties as a violation of the Federal False Claims Act (31 USC 37296).

 - (v) Additional supporting data in a form and detail required by the Procurement Specialist.
 - (2) In the preparation of estimates, the Procurement Specialist may authorize material delivered on the site and preparatory work done to be taken into consideration. Material delivered to the Subcontractor at locations other than the site also may be taken into consideration if-
 - (i) Consideration is specifically authorized by this Blanket Master Agreement; and
 - (ii) The Subcontractor furnishes satisfactory evidence that it has acquired title to such material and that the material will be used to perform this Subcontract.
- (c) Subcontractor *certification.* Along with each request for progress payments, the Subcontractor shall furnish the following certification, or payment shall not be made: (However, if the Subcontractor elects to delete paragraph (c)(4) from the certification, the certification is still acceptable).

- (4) This request for progress payments does not include any amounts which the Subcontractor intends to withhold or retain from a lower-tier subcontractor or supplier in accordance with the terms and conditions of the lower-tier Blanket Master Agreement; and
- (5) I acknowledge and understand that false or fraudulent invoices, requests for payments, or certifications submitted to Contractor are considered false statements or false claims made directly to the United States Federal Government.
- (6) This certification is not to be construed as final acceptance of a lower-tier subcontractor's performance.

(Name)
(Title)
(Date)

- (d) *Refund of unearned amounts.* If the Subcontractor, after making a certified request for progress payments, discovers that a portion or all of such request constitutes a payment for performance by the Subcontractor that fails to conform to the specifications, terms, and conditions of this contract (hereinafter referred to as the "unearned amount"), the Subcontractor shall-
 - (1) Notify the Procurement Specialist of such performance deficiency; and
 - (2) Be obligated to pay the Government an amount (computed by the Procurement Specialist in the manner provided in paragraph (j) of this clause) equal to interest on the unearned amount from the 8th day after the date of receipt of the unearned amount until-
 - (i) The date the Subcontractor notifies the Procurement Specialist that the performance deficiency has been corrected; or
 - (ii) The date the Subcontractor reduces the amount of any subsequent certified request for progress payments by an amount equal to the unearned amount.
- (e) *Retainage.* If the Procurement Specialist finds that satisfactory progress was achieved during any period for which a progress payment is to be made, the Procurement Specialist shall authorize payment to be made in full. However, if satisfactory progress has not been made, the Procurement Specialist may retain **10** percent of the amount of the payment until satisfactory progress is achieved. When the Work is substantially complete, the Procurement Specialist may retain from previously withheld funds and future progress payments that amount the Procurement Specialist considers adequate for protection of the Contractor and the Government and shall release to the Subcontractor all the remaining withheld funds. Also, on completion and acceptance of each separate building, public work, Line Item, or other division of the Blanket Master Agreement, for which the price is stated separately in the Blanket Master Agreement, payment shall be made for the completed Work without retention of a percentage.

- (f) *Title, liability, and reservation of rights.* All material and Work covered by progress payments made shall, at the time of payment, become the sole property of the Government, but this shall not be construed as-
- (1) Relieving the Subcontractor from the sole responsibility for all material and work upon which payments have been made or the restoration of any damaged work; or
 - (2) Waiving the right of the Contractor and/or the Government to require the fulfillment of all of the terms of the contract.
- (g) *Reimbursement for bond premiums.* In making these progress payments, the Contractor shall, upon request, reimburse the Subcontractor for the amount of premiums paid for performance and payment bonds (including coinsurance and reinsurance agreements, when applicable) after the Subcontractor has furnished evidence of full payment to the surety. The retainage clauses in paragraph (e) of this clause shall not apply to that portion of progress payments attributable to bond premiums.
- (h) *Final payment.* The Contractor shall pay the final amount due the Subcontractor under this Subcontract after-
- (1) Completion and acceptance of all Work;
 - (2) Presentation of a properly executed invoice; and
 - (3) Presentation of release of all claims against the Contractor and the Government arising by virtue of this Blanket Master Agreement (as prescribed elsewhere in this Blanket Master Agreement), other than claims, in stated amounts, that the Subcontractor has specifically accepted from the operation of the release. A release may also be required of the assignee if the Subcontractor's claim to amounts payable under this Blanket Master Agreement has been assigned.
- (i) *Limitation because of undefinitized work.* Notwithstanding any clause of this Blanket Master Agreement, progress payments shall not exceed 80 percent on work accomplished on definitized Blanket Master Agreement actions such as change orders which have not yet been reduced to a formal, definitized, Blanket Master Agreement modification.
- (j) *Interest computation on unearned amounts.* In accordance with 31 U.S.C.3903(c)(1), the amount payable under paragraph (d)(2) of this clause shall be-
- (1) Computed at the rate of average bond equivalent rates of 91-day Treasury bills auctioned at the most recent auction of such bills prior to the date the SUBCONTRACTOR receives the unearned amount; and
 - (2) Deducted from the next available payment to the Subcontractor.
- (k) As shown in the Consideration Schedule, a portion of the Blanket Master Agreement price for the Work to be completed under this Blanket Master Agreement has been divided into smaller Firm- Fixed Milestone Payments as shown elsewhere in the Blanket Master Agreement. Subcontractor shall be entitled to invoice for each specified Milestone Payment only upon the successful completion, and Contractor's acceptance of each Milestone in accordance with the Blanket Master Agreement requirements and specified acceptance criteria. Invoices for

Milestone Payments shall be accompanied by documentation signed by the Procurement Specialist or the STR demonstrating that the Milestone has been fully completed and accepted by the Contractor. Invoices shall be accompanied by the certification required by the Invoicing and Payment Clause of this Blanket Master Agreement. Milestone Payments are considered "contract financing payments" as defined in FAR Section 32.001.

21. Non-Interference

Subcontractor is responsible to ensure the non-interference of its own personnel, lower-tier subcontractors or suppliers with ongoing operations and personnel at the NNSS.

Subcontractor shall not, in any manner, interfere with, or permit any of its subcontractors or suppliers to interfere with ongoing operations. Any interference shall be immediately addressed, and the cause identified, and measures taken to prevent reoccurrence.

26. Payment upon Delivery

Subcontractor shall provide each deliverable/submittal in accordance with the Statement of Work and terms of this Blanket Master Agreement. Each deliverable/submittal will be considered accepted when MSTS provides the Subcontractor notice of acceptance. Only if MSTS has not first provided the Subcontractor with written notice of rejection. MSTS may reject a deliverable/submittal only in the event that it materially deviates from its technical specifications, including grammatical and spelling errors and only via written notice outlining the nature of such deviation. In the event of such rejection, the Subcontractor shall correct the deviation and redeliver the deliverable/submittal within three (3) days unless directed otherwise. Redelivery pursuant to the previous sentence will constitute another delivery, and the parties shall again follow the acceptance procedures. Subcontractor's failure to provide deliverables that materially conform to the technical specifications may constitute breach of the Blanket Master Agreement.

27. Invoice Retainage

The Procurement Specialist will retain **10** percent of the total invoiced amount until completion of all the Work. When the Work is substantially complete, the authorized Procurement Specialist may retain from previously withheld funds and future progress payments in an amount that the authorized Procurement Specialist considers adequate for protection of MSTS and shall release to Contractor all the remaining withheld funds.

28. Economic Price Adjustment

(a) The Subcontractor warrants that the unit price stated herein is not in excess of the Subcontractor's applicable established price in effect on the Blanket Master Agreement date for the quantities of the same item. The term "unit price" excludes any part of the price directly resulting from requirements for preservation, packaging, or packing beyond standard commercial practice. The term "established price" means a price that:

1. Is an established catalog or market price for a commercial item sold in substantial quantities to the general public; and
2. Is the net price after applying any standard trade discounts offered by the Offeror.

(b) The Subcontractor shall promptly notify the Contractor of the amount and effective date of each decrease in any applicable established price. Each corresponding Blanket Master Agreement unit price shall be decreased by the same percentage that the established price is decreased. The decrease shall

apply to those items delivered on and after the effective date of the decrease in the Subcontractor's established price, and this Blanket Master Agreement shall be modified accordingly.

(c) If the Subcontractor's applicable established price is increased after the Blanket Master Agreement date, the corresponding Blanket Master Agreement unit price shall be increased, upon the Subcontractor's written request to the Contractor, by the same percentage that the established price is increased, and the Blanket Master Agreement shall be modified accordingly, subject to the following limitations:

1. The aggregate of the increases in any Blanket Master Agreement unit price under this clause shall not exceed 10 percent of the original Blanket Master Agreement unit price.
2. The increased Blanket Master Agreement unit price shall be effective (i) on the effective date of the increase in the applicable established price if the Contractor receives the Subcontractor's written request within 10 days thereafter; or (ii) if the written request is received later, on the date the Contractor receives the request.
3. The increased Blanket Master Agreement unit price shall not apply to quantities scheduled under the Blanket Master Agreement for delivery before the effective date of the increased Blanket Master Agreement unit price, unless failure to deliver before that date results from causes beyond the control and without the fault or negligence of the Blanket Master Agreement, within the meaning of the Default clause.
4. No modification increasing a Blanket Master Agreement unit price shall be executed under this paragraph C until the Contractor verifies the increase in the applicable established price.
5. Contractor may terminate this Blanket Master Agreement in accordance with the Termination clause(s) of this Blanket Master Agreement at any time prior to delivery and acceptance of any items under this Blanket Master Agreement, including items, which would be affected by a price increase under this clause.

(d) During the time allowed for the cancellation provided for in paragraph (c)(5) of this clause, and thereafter if there is no cancellation, the Subcontractor shall continue deliveries according to the Blanket Master Agreement delivery schedule, and the Buyer shall pay for such deliveries at the Blanket Master Agreement unit price, increased to the extent provided by paragraph (c) of this clause.

29. Drawings and/or Specifications

Contractor shall furnish the statement of work, specifications, and prints of engineering design drawings for each part of the work under this Blanket Master Agreement. Such drawings will give information required for the preparation of shop detail drawings by Subcontractor, if required. Subcontractor shall, upon receipt, check all statements of work, specifications and drawings furnished and shall promptly notify Contractor of any omissions or discrepancies in such statements of work, specifications or drawings.

30. Environmental, Safety, and Health

All work performed on NNSS sites shall be accomplished safely in accordance with all applicable Environmental, Safety and Health Requirements.

Based on a review of the Statement of Work for this Blanket Master Agreement, the Contractor has determined that this Blanket Master Agreement merits increased attention to safety performance. Accordingly, Subcontractor is required to apply the guiding principles and core function of Integrated Safety Management System (ISMS) as referred to in Exhibit E.

The Subcontractor shall submit the safety documentation, submittals, and/or safety plan specified by the Contractor in the Blanket Master Agreement, Statement of Work before performing any work on site (unless specifically waived by Contractor).

31. Option to Extend the Term of the Subcontract

Contractor has included an option to extend the term of this Subcontract. In order to demonstrate the value MSTS places on quality performance, Contractor has provided a mechanism for continuing a contractual relationship with a successful Subcontractor that performs at a level which meets or exceeds quality performance expectations. When deciding whether to exercise the options, the Procurement Specialist will consider the quality of the Subcontractor's performance under this Subcontract.

The Subcontractor hereby grants to the Contractor the unilateral right to extend this subcontract 4 additional terms of 1 year(s) each at the unit prices listed in this Subcontract.

32. Progress Reporting

On a monthly basis, the Subcontractor shall provide to Contractor a concise summary report describing the work accomplished during the previous month, work forecasted to be completed during the next reporting period, and a summary of problem areas. The report shall include a schedule update showing work completed, items rescheduled, personnel utilization, and personnel re-forecasts. For work performed on a lump sum basis, the report shall show total amount previously billed and the amount earned during the reported month, by Subcontract Pay Item. The report shall be submitted to the STR by the fifth calendar day after the end of the month being reported.

33. Use of Roadways

Subcontractor shall comply with Contractor's and Government's traffic regulations when utilizing Contractor or Government roadways. It shall be the responsibility of the Subcontractor to familiarize itself and its employees with the traffic and safety requirements applicable to the Site.

34. Inspection and Acceptance

- (a) The Government, through any authorized representatives, has the right at all reasonable times, to inspect, conduct oversight, evaluate, or otherwise assess the work (including construction work) performed or being performed hereunder and the premises in which it is being performed. If any inspection, oversight, or evaluation is made by the Government on the premises of the Contractor or a Subcontractor, the Contractor shall provide and shall require the Subcontractors to provide all reasonable facilities and assistance for the safety and convenience of the Government representatives in the performance of their duties. All inspections and evaluations shall be performed in such a manner as will not unduly delay the work.
- (b) Government inspection, oversight, evaluation, and other assessments of Subcontractor performed work are for the sole benefit of the Government, and do not:
 - (1) Relieve the Subcontractor of responsibility for providing adequate quality control measures;
 - (2) Relieve the Subcontractor of responsibility for damage to or loss of the material before acceptance;
 - (3) Constitute or imply acceptance; or
 - (4) Affect the continuing rights of the Government after acceptance of the completed work.

- (c) The presence or absence of a Government representative, performing inspection, oversight, evaluation or assessment does not relieve the Subcontractor from any contract requirement, and does not change any term or condition of the specification.
- (d) For construction work:
 - (1) "Work" includes, but is not limited to, materials, workmanship, and manufacture and fabrication of components.
 - (2) Acceptance of construction work shall be final and conclusive except for latent defects, fraud, gross mistakes amounting to fraud, or the Government's rights under any warranty or guarantee.
 - (3) Acceptance of all work and effort under this Blanket Master Agreement (including "Reporting Requirements," if any) shall be accomplished by the Contracting Officer, or any authorized representative, as designated in writing by the Contracting Officer.

35. Contractor-Furnished Utilities, Facilities, Materials and Equipment

Contractor shall furnish the utilities, facilities, materials, equipment, and training listed below without cost to the Subcontractor as identified in the Statement of Work. Utilities will be furnished at outlets and/or connections existing on the Nevada National Security Site (NNSS) and Subcontractor shall, at its expense, extend such utilities from said outlets to points of use and at completion of the entire Work remove all materials and equipment used for such extensions. Use of facilities shall be subject to prior written approval of Contractor. Contractor will furnish to Subcontractor, at designated locations, the materials and equipment listed below to be incorporated into or used in performance of the Work. Subcontractor shall, at its expense, accept delivery thereof, load, unload, transport to points of use and care for the materials and equipment until final disposition thereof. In the event the Contractor furnishes Subcontractor personal property deemed Sensitive Property, Subcontractor shall sign a Sensitive Property Receipt indicating the name and signed by the individual who will be responsible for the property item until it is returned to the Contractor. "Sensitive property" means property potentially dangerous to the public safety or security if stolen, lost, or misplaced, or that shall be subject to exceptional physical security, protection, control, and accountability. Examples include weapons, ammunition, explosives, controlled substances, radioactive materials, hazardous materials or wastes, or precious metals. All equipment and other property furnished by the Contractor and/or Government to the Subcontractor shall be documented and managed by the Subcontractor in accordance with FAR Clause 52.245-1, Government Property.

36. Permits and Responsibilities

- (a) Except for permits furnished by the Contractor as specified in paragraph (b), the Subcontractor shall, without additional expense to the Contractor, be responsible for obtaining any and all necessary licenses and permits.
- (b) The Contractor will without cost to the Subcontractor, furnish the permits listed in the Statement of Work. All such Contractor-furnished permits are available for examination at the project office of Contractor during regular business hours.

The schedule shall be kept up to date, taking into account the actual progress of Work and shall be revised, if necessary, every thirty (30) calendar days. The revised schedule shall, as determined by Contractor, be sufficient to meet the requirements for the completion of the separable parts of any and all Work as set forth in this Blanket Master Agreement.

The Subcontractor shall enter the actual progress on the schedule as directed by the STR, and upon doing so shall immediately deliver three copies of the annotated schedule to the STR. If, in the opinion of the Procurement Specialist, the Subcontractor falls behind the approved schedule, the Subcontractor shall take steps necessary to improve its progress, including those that may be required by the Procurement Specialist, without additional cost to the Contractor. In this circumstance, the Procurement Specialist may require the Subcontractor to increase the number of shifts, overtime operations, days of work, and/or the amount of construction plant, and to submit for approval any supplementary schedule or schedules in chart form as the Procurement Specialist deems necessary to demonstrate how the approved rate of progress will be regained.

Failure of the Subcontractor to comply with the requirements of the Blanket Master Agreement Administrator under this clause shall be grounds for a determination by the Procurement Specialist that the Subcontractor is not prosecuting the work with sufficient diligence to ensure completion within the time specified in the Blanket Master Agreement. Upon making this determination, the Procurement Specialist may terminate the Subcontractor's right to proceed with the work, or any separable part of it, in accordance with the default terms of this Blanket Master Agreement.

Contractor review and permission to proceed does not constitute acceptance or approval of submittals including, but not limited to, design details, calculations, analyses, test methods, construction methods, rigging plans, certificates, or materials developed or selected by Subcontractor and does not relieve Subcontractor from full compliance with the subcontract requirements. The Subcontractor shall utilize FRM-0226, Titled "Transmittal Sheet – Subcontract" to transmit Submittals and/or Request for clarifications to obtain authorization status by the Contractor.
