PART A - SOLICITATION

1.0 Introduction

Mission Support and Test Services, LLC, (hereby MSTs or “Contractor” or “Buyer”) acting under its contract in support of the Nevada National Security Site (NNSS) Prime Contract DE-NA0003624 with the U.S. Department of Energy (DOE), Las Vegas, Nevada Office requests Offeror to submit a proposal for a Firm-Fixed Price Master Agreement type of subcontract to provide Construction Services for the ProtoSTAR Building Bundle.

NOTE: Communications with any MSTs personnel except the named Procurement Specialist concerning any aspect of this Solicitation may be grounds for disqualifying an Offeror from being considered for award.

1.1 North American Industry Classification System (NAICS) Code and Size Standard

The Procurement Specialist has determined that North American Industry Classification System (“NAICS”) Code 236220-Commercial and Institutional Building Construction, applies to this acquisition. Therefore, the size standard for determining whether an Offeror is a small business in regard to this acquisition is \$45M.

If this solicitation is designated as a small business set-aside, by submitting a proposal or an offer to this solicitation, the Offeror certifies that they are a small business qualifying for the NAICS code and meeting the size standard noted above.

By submitting a proposal for this solicitation, Offeror agrees to indemnify, defend, and hold harmless Contractor for any and all liability, loss, damages, penalties, claims, costs, and expenses, including attorney fees and costs of legal action, litigation, or settlement, arising from, or relating to Offeror’s misrepresentation of its business size or status, regardless of whether Offeror’s misrepresentation was willful, intentional, or knowing.

1.2 Buyer Not Obligated- Irregularities and Notifications

Buyer is not obligated to pay any costs incurred in the preparation and submission of Offeror’s proposal, nor required to enter into a Subcontract or any other arrangement with Offeror.

1.3 Request for Solicitation Amendments

The Procurement Specialist may issue one or more amendments to the Request for Proposal (RFP) to make changes or to resolve any problems regarding the solicitation. The Procurement Specialist will issue the amendment in time for prospective Offerors to incorporate any changes into their proposals. If this RFP is amended, then all terms and conditions that are not amended will remain unchanged. FAILURE TO ACKNOWLEDGE THE RECEIPT OF THE AMENDMENT AT THE DESIGNATED LOCATION BY THE SPECIFIED DATE AND TIME MAY RESULT IN REJECTION OF THE OFFER.

2.0 Proposal Submittal and Deadline

MSTS prefers that the proposal be submitted via e-mail provided that it includes appropriate signatures where required. Partial or incomplete proposals may not be considered. Identify the name of the procurement Specialist and the Solicitation number to which Offeror is responding on the e-mail transmittal document.

The proposal is due by January 11th, 2026, at 12:00PM PST.

2.1 Late Proposals

A proposal is considered late if it is received after the exact time and date specified for receipt and will not be considered unless:

- a. It was sent by email, and it is determined that the late receipt was due solely to mishandling upon receipt; or
- b. It is the only proposal received.

2.2 Proposal Changes

Any modification of a proposal, including the Procurement Specialist's request for "Final Proposal Revisions (FPR)," is subject to the same conditions as in the "Late Proposals" section above.

2.3 Withdrawal

Offeror may withdraw its proposal by written or electronic notice received at any time prior to award.

2.4 Notification of Intent to Propose

Buyer requests that each prospective Offeror notify the Procurement Specialist by email no later than December 18th, 2025, at 12:00PM PST, whether the Offeror intends to submit a proposal in response to this RFP. The Offeror may transmit the notification to the Procurement Specialist via email.

2.5 Questions/Comments Regarding the Solicitation

The Offeror must submit any comments or questions regarding the solicitation to the Procurement Specialist no later than December 10th, 2025, at 4:30PM PST. The Offeror may transmit questions and comments via e-mail. The Procurement Specialist will answer all questions in writing for the benefit of all prospective Offerors.

3.0 Basis for Award

MSTS may award one Master Agreement (subcontract) as a result of this solicitation. Award will be made to the Offeror who is considered to be the overall Best Value to the government. This solicitation and subsequent Task Order #1 solicitation provides the basis for MSTS evaluation. Offerors are also advised that the Buyer reserves the right to award a subcontract based upon initial offers and without further discussions with Offerors. Offeror should provide their best price and technical offers initially.

3.1 Mandatory Minimum Requirements

MSTS has established the following minimum mandatory "qualification standards" requirements to be evaluated on a "Go/No-Go" basis that must be fully met in order for an Offeror to be considered for award. These standards identify the minimum requirements that are key to successful contract performance.

The Offeror's proposal must meet all qualification standards before advancing in the proposal evaluation process. Those proposals are evaluated to "Go" or meet qualification standards will then be evaluated against the evaluation factors as further defined in Section 3.2. Those proposals that receive a "No-Go" rating will be removed from further consideration for award.

3.1.1 Mandatory Subcontractor Qualification Standards

- a. SUBCONTRACTOR shall have minimum five (5) years of experience in performing construction services similar in size, scope, and complexity as the work requested.
- b. SUBCONTRACTOR shall have demonstrated five (5) years of experience in managing multiple competing tasks, including work prioritization.
- c. SUBCONTRACTOR shall have demonstrated five (5) years of experience in performing construction-related activities within schedule and budget constraints.
- d. SUBCONTRACTOR shall have experience in preparing evaluations and forecasts for maintenance services to ensure delivery

In addition to the above, the SUBCONTRACTOR shall provide qualified personnel throughout the period of performance of the Subcontract. SUBCONTRACTOR shall be responsible for ensuring its personnel meet and/or maintain current and valid training requirements, certifications and are fully capable to complete the duties described through the entirety of the Subcontract period of performance.

3.1.2 Key Personnel Requirements

- a. Project/Task Order Manager: Minimum of five (5) years of experience in project management activities associated with large scale construction work, similar in type, scope, and complexity as will be requested under the Agreement.
- b. Construction Manager: Minimum of ten (10) years of experience managing large scale construction work, similar in type, scope, and complexity as will be requested under the Agreement.
- c. Site Superintendent: Minimum of five (5) years of experience supervising construction activities associated with large scale construction work, similar in type, scope, and complexity as will be requested under the Agreement.
- d. Quality Representative: Minimum of five (5) years of experience in quality assurance, control, or management activities associated with large-scale construction work, similar in type, scope, and complexity as will be requested under the Agreement.
- e. Safety Representative: Minimum of five (5) years of experience in construction safety associated with large scale construction work, similar in type, scope, and complexity as will be requested under the Agreement.

3.2 Tradeoff Selection Process

Award may be made to the Offeror submitting the best proposal in which both cost/price and other specifically defined factors will be the basis of award. Proposals will be evaluated to determine the response that provides the best value to Buyer and the Government, considering cost/price and technical criteria; with technical rated higher than cost/price. The Buyer will select the Offeror whose proposal is technically acceptable and who's technical and price relationship is most advantageous to the Buyer and the Government. The Buyer will award to an Offeror, other than the lowest responsive and responsible Offeror, if the evaluation indicates that the Offeror's proposal is sufficiently superior from a technical standpoint so as to warrant payment by the Buyer of a premium (i.e., difference in price between the superior proposal and lower responsive proposals) for such superiority. The proposed price between Offerors in the competitive range, especially between proposals which have fairly equal technical ratings, may be the major deciding factor in selection of a proposal for award. Buyer shall not select a proposal whose proposed price is disproportionately greater than the added benefit to the Buyer/Government of any technical superiorities.

Technical/Business Evaluation Criteria

The following scored evaluation criteria, which are listed in order of significance, are the technical and business criteria that will be used along with cost or price in determining which Offeror will be selected (if at all) for an award. The scored evaluation criteria are listed in descending order of importance: Criterion one (1), Build Experience, is the highest of importance Criterion two (02), Project Management Plan, and Criterion three (03), Past Performance are of equal importance, but are less important than Criterion 01.

NOTE: Failure of the Offeror to provide complete information may impair the Contractor's ability to accurately evaluate the proposal, resulting in potentially lower scores for one or more of the Criteria described below and/or elimination of the proposal from further consideration.

A. Criterion 01: Build Experience

- OFFEROR shall demonstrate that it has experience in Build projects and provide an overall methodology of successful execution of such. OFFERORs shall include examples of projects of a similar or reasonably similar nature which were completed, or which were ongoing within the last three (3) year period preceding the proposal's due date. Provide an overall methodology of successful execution of such.
- Include specific examples of projects completed. Examples shall reflect a scope similar to that requested in this Request for Proposal.

- Include from Exhibit 005, Past Performance Questionnaire and Form 004, Lower- Tier Subcontractor Experience Statement.

Higher scores will be given to the Offerors that have multiple Design-Bid-Build experience in projects of similar scope/size.

B. Criterion 02: Project Management Plan

The OFFEROR shall submit a narrative describing its plan for project execution. The plan must demonstrate a full understanding of the Statement of Work (SOW) for this project and must contain the following elements specific in the Specification:

- Project Management Plan (PMP) – Provide a specific PMP that demonstrates how planning and execution shall be performed as well as what quality assurance methods will be employed to ensure coordination and reviews are completed. PMP to include a high-level work breakdown structure and organization chart that shows key personnel. The organization chart shall also show the organization of lower-tier subcontractors with a brief description of their roles and responsibilities.
- Project Schedule – Provide a schedule that aligns with dates provided in the Statement of Work (Exhibit B) that also includes design and construction key milestones including, design development and review cycles.
- Resumes – Provide resumes of key personnel to include but not limited to Project/Task Order Manager, Construction Manager, On-site Safety Representative, On-site Superintendents, On-site Quality Assurance along with Standard Form SF 330, Architect-Engineer Qualifications for Architects and Engineers. OFFEROR and proposed lower-tier subcontractors shall demonstrate qualifications, licensing, and certifications in accordance with the Master Statement of Work in Section B-6, Qualifications, Licensing, Certifications.

Higher scores will be given to the Offerors that better demonstrate their understanding of the statement of work through their Project Management Plan and schedule. In addition, resumes of employees with more relevant qualifications/education/experience will receive a higher score.

C. Criterion 03: Past Performance (Complete Past Performance Form)

Experience evaluation will focus on the breadth of experience, while Past Performance evaluation will focus on the quality of performance. Experience evaluates what the Offeror has done, while past performance evaluates how well the Offeror has performed.

- OFFEROR shall submit Past Performance Questionnaires. Questionnaires are to be completed and submitted by the reference, not the OFFEROR. The OFFEROR will provide Past Performance Questionnaires to companies who will furnish past performance data on the OFFEROR's firm directly to Mission Support and Test Services, LLC. The OFFEROR shall include in its proposal the list of companies selected to submit a Past Performance Questionnaire, including the company name, address, and phone number.

Higher scores will be given to OFFERORS that receive favorable ratings on their questionnaires. The OFFEROR'S past performance information shall be evaluated to determine the degree to which it demonstrates that the OFFEROR WILL successfully perform the Work. CONTRACTOR may consider any past performance information available from other sources in addition to the Past Performance Questionnaires.

D. Cost/Price Evaluation

Cost/Price will be evaluated for reasonableness based on Task Order #1 proposal. The PS will analyze the Offeror's pricing and rank the price among the prices of other Offerors. It is important to note that MSTS will not make an award at a significantly higher overall price in order to achieve slightly superior technical or management features. As proposals become more equal in their technical merit, the evaluated price becomes more important.

4.0 Proposal Instructions

Follow the described proposal instructions.

By submitting a proposal, Offeror agrees to indemnify, defend, and hold harmless Buyer for any and all liability, loss, damages, penalties, claims, costs, and expenses, including attorney fees and costs of legal action, litigation, or settlement, arising from, or relating to any misrepresentation by Offeror of Offeror's small business size and/or socioeconomic status or qualifications, regardless of whether Offeror's misrepresentation was willful, intentional, or knowing.

4.1 Responsiveness Determination

The Procurement Specialist will determine if the Offeror is responsive to the Buyers requirements and eligible for award. This evaluation may include, but is not limited to, information gathered from other sources, including safety performance, financial stability and past performance for the Buyer or other customers. The determination may be made at any time by the Buyer without additional questions or revision. The Buyer may waive minor informalities and irregularities in offers received.

4.2 Acceptance or Rejection of Proposals

The Buyer reserves the right to accept or reject any proposal with or without prior discussion with the Offeror. The Buyer may:

- award a subcontract on the basis of proposals received without discussions with Offerors (therefore, initial proposals should be submitted with the most favorable technical and price terms);
- select one or more Offerors to negotiate with;
- reject any or all proposals received;
- issue a request for new proposals; or
- cancel the RFP without awarding a contract.

4.3 Proposal Preparation

Proposals must clearly and convincingly demonstrate that the Offeror has a thorough understanding of and will be able to perform the proposed Subcontract successfully. For technical work, describe the proposed technical approach including assumptions and supporting detail. Unsupported, unclear, or inconsistent statements about offeror's proposed performance and compliance with all Subcontract requirements may be determined as non-responsive.

Prepare the proposal simply and economically and provide a straightforward and concise presentation of the information requested in the RFP. Emphasize completeness and clarity. Do not submit elaborate brochures or other presentations that are neither required nor desired by MSTS.

If the Offeror submits any data which it considers proprietary data as part of its proposal, the document transmitting the data or which contains the data, shall be boldly marked indicating that the data included is considered proprietary.

4.4 Proposal Content

Proposals shall include the following elements and be organized in the manner listed below. Each volume of the proposal should be separate and complete. **Omit all cost or pricing details from the technical proposal.**

4.8 Requirements for Supporting Price Information or Certified Cost or Pricing Data

The Offeror is required to submit certified cost or pricing data in support of the proposal, unless exempted by the Contractor under FAR 15.403-1.

In lieu of submitting certified cost or pricing data, Offerors may submit a written request for exception by submitting the information described in the following paragraphs. 2. Such information may include:

Provide a copy or describe current discount policies and price lists (published or unpublished), e.g., wholesale, original equipment manufacturer, or reseller. Also explain the basis of each offered price and its relationship to the established catalog price, including how the proposed price relates to the price of recent sales in quantities similar to the proposed quantities.
 - b. For market-priced items, the source and date or period of the market quotation or other basis for market price, the base amount, and applicable discounts. In addition, describe the nature of the market.
 - c. For items included on an active Federal Supply Service Multiple Award Schedule contract, proof that an exception has been granted for the schedule item.

3. Additional supporting information, to the extent necessary to determine whether the price is fair and reasonable.

Requirements for certified cost or pricing data.

4. If the Offeror is not granted an exception from the requirement to submit cost or pricing data, the following applies:
 - a. The Offeror shall prepare and submit cost or pricing data and supporting attachments in accordance with Table 15-2 of FAR 15.408.

The Offeror grants the Contractor or an authorized representative the right to examine, at any time before award, books, records, documents, or other directly pertinent records to verify any request for an exception under this provision and the reasonableness of price. For items priced using catalog or market prices, or law or regulation, access does not extend to cost or profit information or other data relevant solely to the Offeror's determination of the prices to be offered in the catalog or marketplace.

*See [FAR 2.101](#) for definition of "commercial."

Subcontractor's Compensation Reporting Guidelines

Upon award of any Subcontractor award of \$30,000 or more, and annually thereafter, MSTS as the prime contractor must report the total compensation and names of the Subcontractor's top five most highly compensated executives if:

- (a) In the Subcontractor's preceding fiscal year, the Subcontractor received:
 - (i) 80% or more of its annual gross revenues from Federal contracts (and subcontracts), loans, grants (and subgrants) and cooperative agreements, and other forms of Federal financial assistance; and
 - (ii) \$25,000,000 or more in annual gross revenues from Federal contracts (and subcontracts), loans, grants (and subgrants) and cooperative agreements, and other forms of Federal financial assistance; and
- (b) The public does not have access to information about the compensation of the executives through period reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 USC 78m(a), 78o(d)) or section 6104 of the Internal Revenue Code of 1986.

If a Subcontractor in the previous tax year had gross income from all sources under \$300,000, the prime contractor does not need to report awards for that subcontractor.

This information will be reported through SAM.gov Subaward Reporting System. The public may view first-tier subcontract award data at <http://usaspending.gov>.

Definitions

As used in FAR 52.204-10:

Executive means officers, managing partners, or any other employees in management positions.

First-tier subcontract means a subcontract awarded directly by the Contractor for the purpose of acquiring supplies or services (including construction) for performance of a prime contract. It does not include the Contractor's supplier agreements with vendors, such as long-term arrangements for materials or supplies that would benefit multiple contracts and/or the costs of which are normally applied to a Contractor's general and administrative expenses or indirect cost.

Total compensation means the cash and noncash dollar value earned by the executive during the Contractor's preceding fiscal year and includes the following (for more information see 17 CFR 229.402(c)(2)):

- (1) Salary and bonus.
- (2) Awards of stock, stock options, and stock appreciation rights. Use the dollar amount recognized for financial statement reporting purposes with respect to the fiscal year in accordance with the Financial Accounting Standards Board's Accounting Standards Codification (FASB ASC) 718, Compensation-Stock Compensation.
- (3) Earnings for services under non-equity incentive plans. This does not include group life, health, hospitalization or medical reimbursement plans that do not discriminate in favor of executives and are available generally to all salaried employees.
- (4) Change in pension value. This is the change in present value of defined benefit and actuarial pension plans.

- (5) Above-market earnings on deferred compensation which is not tax-qualified.
- (6) Other compensation, if the aggregate value of all such other compensation (e.g., severance, termination payments, value of life insurance paid on behalf of the employee, perquisites or property) for the executive exceeds \$10,000.

Form 009 – Organizational Conflict of Interest – Representation or Disclosure

It is the policy of MSTS and its Government Agency clients to identify and avoid Organizational Conflicts of Interest (OCI), that is, situations which place a Subcontractor in a position where its judgment may be biased due to any past, present, or currently planned interest, financial or otherwise, that the Subcontractor may have which relates to the work to be performed pursuant to this solicitation or where the SUBCONTRACTOR'S performance of such work may provide it with an unfair competitive advantage. (As used herein, "Subcontractor" means the proposer as an individual consultant, a representative of a corporation or company, or any of its affiliates or proposed consultants or supplier/subcontractor of any tier).

DISCLOSURE

The Subcontractor shall provide a statement, which describes, in a concise manner, all requirements listed in the Special Condition entitled "Organizational Conflicts of Interest – Advisory and Assistance Contracts."

The Subcontractor may, because of possible OCIs, propose to exclude specific kinds of work, unless the solicitation specifically prohibits such exclusion. Any such proposed exclusion by a Subcontractor shall be considered by MSTS in the evaluation of proposals, and if MSTS considers the proposed excluded work to be an essential or integral part of the required work, the proposal may be rejected as unacceptable.

The Subcontractor may also provide information that shows how its organizational structure and/or management systems limit possible OCIs relating to affiliates or other divisions of the Subcontractor and how that structure or system would avoid an OCI.

The Subcontractor shall submit the same information as required herein, for its subcontractors, which will perform work similar to that to be performed by the Subcontractor and are over the simplified acquisition threshold.

The Subcontractor shall promptly provide to MSTS any changes or additions in its relevant facts that occur between the submission of its proposal and the award of the subcontract or the time that the Subcontractor is notified that it is no longer under consideration for award.

REPRESENTATION

In the absence of any relevant facts, the Subcontractor shall complete the *Representation* certifying that to the best of his or her knowledge and belief no such facts exist. Also, a completed *Representation* must be provided by the Subcontractor for each of its consultants and suppliers/ Subcontractors which will perform work similar to that to be performed by the Subcontractor and for each of its chief executives and directors, and those of its consultants and suppliers/ Subcontractors performing similar services, who will be directly involved in performance of the subcontract.

MSTS AND GOVERNMENT CLIENT

No award shall be made until the *Representation* or *Disclosure* has been evaluated by MSTS. MSTS will review the *Representation* or *Disclosure* and may require additional information from the Subcontractor. All information received from the Subcontractor and any other relevant information known to MSTS or the client will be used to determine whether an award to the Subcontractor may create an OCI with respect to the Subcontractor's (1) being able to render impartial, technically sound, and/or objective assistance or advice or (2) being given an unfair competitive advantage. If an OCI is found to exist, MSTS, at its sole discretion, may (1) impose appropriate conditions which avoid such conflict, (2) disqualify the Subcontractor for award, or (3) determine that it is otherwise in the best interest of the government to contract with the Subcontractor in face of an OCI after including appropriate conditions mitigating such conflict.

DISQUALIFICATION OR TERMINATION

The refusal to provide the *Representation or Disclosure* and any additional information, which is requested, shall result in disqualification of the Subcontractor for award. The nondisclosure or misrepresentation of any relevant facts may also result in the disqualification of the Subcontractor for award, or if such nondisclosure or misrepresentation is discovered after award, the resulting subcontract may be terminated for default. The Subcontractor may also be disqualified from subsequent, related MSTs subcontracts and be subject to other remedial action as permitted or provided by law or in the resulting subcontract. The attention of the Subcontractor in complying with this clause is directed to 18 U.S.C. 1001.

No work shall be performed, and Contractor will not authorize work to begin, until representations and disclosure information has been evaluated. Contractor may also, at its option, permit missing representations or disclosure information to be provided by an Offeror at any time during the pre-award process.

In lieu of or in addition to the above and/or when requested by Contractor, Offeror shall provide a certification similar to the following, altered only to reflect the relevant facts:

ORGANIZATIONAL CONFLICT OF INTEREST DISCLOSURE STATEMENT

I hereby certify that, to the best of my knowledge and belief, no facts exist relevant to any past, present, or currently planned interest or activity (financial, contractual, personal, organizational, or otherwise) that relate to the proposed work; and bear on whether I and the Offeror have a possible conflict of interest with respect to being able to render impartial, technically sound, and objective assistance or advice, or being given unfair competitive advantage.

_____ (Date)

- (d) *Refund of unearned amounts.* If the Subcontractor, after making a certified request for progress payments, discovers that a portion or all of such request constitutes a payment for performance by the Subcontractor that fails to conform to the specifications, terms, and conditions of this contract (hereinafter referred to as the “unearned amount”), the Subcontractor shall-
- (1) Notify the Procurement Specialist of such performance deficiency; and
 - (2) Be obligated to pay the Government an amount (computed by the Procurement Specialist in the manner provided in paragraph (j) of this clause) equal to interest on the unearned amount from the 8th day after the date of receipt of the unearned amount until-
 - (i) The date the Subcontractor notifies the Procurement Specialist that the performance deficiency has been corrected; or
 - (ii) The date the Subcontractor reduces the amount of any subsequent certified request for progress payments by an amount equal to the unearned amount.
- (e) *Retainage.* If the Procurement Specialist finds that satisfactory progress was achieved during any period for which a progress payment is to be made, the Procurement Specialist shall authorize payment to be made in full. However, if satisfactory progress has not been made, the Procurement Specialist may retain 10% percent of the amount of the payment until satisfactory progress is achieved. When the Work is substantially complete, the Procurement Specialist may retain from previously withheld funds and future progress payments that amount the Procurement Specialist considers adequate for protection of the Contractor and the Government and shall release to the Subcontractor all the remaining withheld funds. Also, on completion and acceptance of each separate building, public work, Line Item, or other division of the Subcontract, for which the price is stated separately in the Subcontract, payment shall be made for the completed Work without retention of a percentage.
- (f) *Title, liability, and reservation of rights.* All material and Work covered by progress payments made shall, at the time of payment, become the sole property of the Government, but this shall not be construed as-
- (1) Relieving the Subcontractor from the sole responsibility for all material and work upon which payments have been made or the restoration of any damaged work; or
 - (2) Waiving the right of the Contractor and/or the Government to require the fulfillment of all of the terms of the contract.
- (g) *Reimbursement for bond premiums.* In making these progress payments, the Contractor shall, upon request, reimburse the Subcontractor for the amount of premiums paid for performance and payment bonds (including coinsurance and reinsurance agreements, when applicable) after the Subcontractor has furnished evidence of full payment to the surety. The retainage clauses in paragraph (e) of this clause shall not apply to that portion of progress payments attributable to bond premiums.
- (h) *Final payment.* The Contractor shall pay the final amount due the Subcontractor under this Subcontract after-

- (1) Completion and acceptance of all Work;
 - (2) Presentation of a properly executed invoice; and
 - (3) Presentation of release of all claims against the Contractor and the Government arising by virtue of this Subcontract (as prescribed elsewhere in this Subcontract), other than claims, in stated amounts, that the Subcontractor has specifically accepted from the operation of the release. A release may also be required of the assignee if the Subcontractor's claim to amounts payable under this Subcontract has been assigned.
- (i) *Limitation because of undefinitized work.* Notwithstanding any clause of this Subcontract, progress payments shall not exceed 80 percent on work accomplished on undefinitized subcontract actions such as change orders which have not yet been reduced to a formal, definitized, Subcontract modification.
- (j) *Interest computation on unearned amounts.* In accordance with [31 U.S.C.3903\(c\)\(1\)](#), the amount payable under paragraph (d)(2) of this clause shall be-
- (1) Computed at the rate of average bond equivalent rates of 91-day Treasury bills auctioned at the most recent auction of such bills prior to the date the SUBCONTRACTOR receives the unearned amount; and
 - (2) Deducted from the next available payment to the Subcontractor.
- (k) As shown in the Consideration Schedule, a portion of the Subcontract price for the Work to be completed under this Subcontract has been divided into smaller Firm- Fixed Milestone Payments as shown elsewhere in the Subcontract. Subcontractor shall be entitled to invoice for each specified Milestone Payment only upon the successful completion, and Contractor's acceptance of each Milestone in accordance with the Subcontract requirements and specified acceptance criteria. Invoices for Milestone Payments shall be accompanied by documentation signed by the Procurement Specialist or the STR demonstrating that the Milestone has been fully completed and accepted by the Contractor. Invoices shall be accompanied by the certification required by the Invoicing and Payment Clause of this Subcontract. Milestone Payments are considered "contract financing payments" as defined in FAR Section 32.001.

27. Milestone Payments - Schedule of Quantities and Prices

The need for customary progress payments conforming to the regulations in subpart 32.5 of the Federal Acquisition Regulation (FAR) will not be considered as a handicap or adverse factor in the award of the contract. Even though the clause is included in the subcontract, the clause shall be inoperative during any time the subcontractor's accounting system and controls are determined by MSTS and the Government to be inadequate for segregation and accumulation of contract costs.

The unit prices shown are all-inclusive Firm-Fixed-Unit-Prices (including e.g., labor, materials, G&A, overhead, profit or fee, taxes (including sales or use taxes required to be paid by Subcontractor for materials or services incorporated into the construction project)*, any other costs required to be paid by law, regulation, or ordinance, and any other cost of whatsoever nature). Payment of the Prices shall

constitute full payment for the performance of the Work and covers all costs of whatever nature incurred by Subcontractor in accomplishing the Work in accordance with the provisions of the Subcontract and are not subject to escalation for any cause, except as may otherwise be provided in this Subcontract.

*Other than for materials or services incorporated into the construction project, sales tax is not included in the price but shall be added to each invoice as a separate line item if applicable to the Contractor under this Subcontract/Order in accordance with applicable state law.

B. Progress Payments

Progress Payments shall be made as work progresses for the Line Items identified as Progress Payments in the Compensation Schedule of the respective Task Order. Progress Payments shall be made in accordance with the Invoicing and Payment Clause. C. Schedule of Values:

Within 10 days of award of a Task Order requiring the provision of a Schedule of Values, the Subcontractor shall submit a Schedule of Values to the Procurement Specialist for review and approval. The Schedule of values must identify the major segments of the construction phase and the estimated cost to complete each segment. The estimated costs of the construction phase in aggregate must equal the line item for construction in the consideration schedule. The schedule of values will consist of the following segments at a minimum, but the Procurement Specialist may require the Subcontractor to break out the construction work into additional segments, as the Procurement Specialist may determine necessary in their discretion.

28. Payment upon Delivery

Subcontractor shall provide each deliverable/submittal in accordance with the Statement of Work and terms of this subcontract. Each deliverable/submittal will be considered accepted when MSTS provides the Subcontractor notice of acceptance. Only if MSTS has not first provided the Subcontractor with written notice of rejection. MSTS may reject a deliverable/submittal only in the event that it materially deviates from its technical specifications, including grammatical and spelling errors and only via written notice outlining the nature of such deviation. In the event of such rejection, the Subcontractor shall correct the deviation and redeliver the deliverable/submittal within three (3) days unless directed otherwise. Redelivery pursuant to the previous sentence will constitute another delivery, and the parties shall again follow the acceptance procedures. Subcontractor's failure to provide deliverables that materially conform to the technical specifications may constitute breach of the subcontract.

 - (3) Constitute or imply acceptance; or
 - (4) Affect the continuing rights of the Government after acceptance of the completed work.
- (c) The presence or absence of a Government representative, performing inspection, oversight, evaluation or assessment does not relieve the Subcontractor from any contract requirement, and does not change any term or condition of the specification.
- (d) For construction work:
 - (1) "Work" includes, but is not limited to, materials, workmanship, and manufacture and fabrication of components.
 - (2) Acceptance of construction work shall be final and conclusive except for latent defects, fraud, gross mistakes amounting to fraud, or the Government's rights under any warranty or guarantee.

The Subcontractor shall enter the actual progress on the schedule as directed by the STR, and upon doing so shall immediately deliver three copies of the annotated schedule to the STR. If, in the opinion of the Procurement Specialist, the Subcontractor falls behind the approved schedule, the Subcontractor shall take steps necessary to improve its progress, including those that may be required by the Procurement Specialist, without additional cost to the Contractor. In this circumstance, the Procurement Specialist may require the Subcontractor to increase the number of shifts, overtime operations, days of work, and/or the amount of construction plant, and to submit for approval any supplementary schedule or schedules in chart form as the Procurement Specialist deems necessary to demonstrate how the approved rate of progress will be regained.

Failure of the Subcontractor to comply with the requirements of the Subcontract Administrator under this clause shall be grounds for a determination by the Procurement Specialist that the Subcontractor is not prosecuting the work with sufficient diligence to ensure completion within the time specified in the

Subcontract. Upon making this determination, the Procurement Specialist may terminate the Subcontractor's right to proceed with the work, or any separable part of it, in accordance with the default terms of this Subcontract.

Being signatory to the PLA/CBA means that the SUBCONTRACTOR agrees to comply with all the Terms and Conditions set forth in the applicable PLA/CBA inclusive of the wage rates, fringe benefits, subsistence and the hiring/referral procedures.

Any work to be performed by crafts covered by the agreements shall be paid, at a minimum, the amounts listed for the respective PLA/CBA, or the Construction Wage Rates (See Exhibit C, FAR Clause 52.222-6 Construction Wage Rate Requirements, which is incorporated by reference into this Subcontract) attached to this Subcontract, whichever is higher.

If, during subcontract performance, any of the wage rates and fringe benefits increase or decrease as a result of changes to the wage rates and fringe benefits in the applicable CBA(s)/PLA(s) as negotiated between the Contractor and the relevant union(s), the Subcontract Administrator will modify the contract price or contract unit price to account for the resulting increase or decrease in labor costs. Any adjustment will be limited to increases or decreases in wages and fringe benefits and the accompanying increases or decreases in social security and unemployment taxes and workers' compensation insurance but will not otherwise include any amount for general and administrative costs, overhead, profit, or any other costs. The Subcontract Administrator shall calculate the price adjustment in the same manner as prescribed in FAR 52.222-32, Construction Wage Rate Requirements-Price Adjustment (Actual Method). The successful proposer and their lower-tier subcontractors are required to attend a Pre-Job Conference with the Building Trades in accordance with the PLA/CBA prior to mobilization.

The Subcontractor shall call the CONTRACTOR'S Labor Relations Office at (702) 295-4147 or 295 4795; FAX (702) 295-9610 for scheduling of the above Pre-Job Conference. The Building Trades phone numbers are (702) 452-8799; FAX (702) 452-9537.
